## Summary

---

- Ambitious Junior Front End Developer ready to put my skills to the test.
- A fast learner with a passion to create clean code and user-friendly applications.
- Team Player with proven success in customer service and cross-team collaboration.

## Technical Skills

---

**Technologies:** HTML, CSS, JavaScript, Git, Bootstrap, Moment.js, UIKit

## Education

---

### Penn LPS Coding Bootcamp

Full Stack Developer 2021 - 2021

Currently enrolled at Penn LPS Coding Bootcamp where I am learning a lot of skills and technologies which will help me become a better Software Engineer.

## Projects

---

**Weather Report** | [https://github.com/dextervorbe/Weather\\_Report](https://github.com/dextervorbe/Weather_Report) | [https://dextervorbe.github.io/Weather\\_Report/](https://dextervorbe.github.io/Weather_Report/)

- This application was designed so that you can input a location and get the current weather as well as the following 5 days afterwards.
- **Tools Used:** HTML, CSS, Moment.js, JavaScript while also using the openweather API.

**Workday Scheduler** | <https://github.com/dextervorbe/Work-Day-Schedule> | <https://dextervorbe.github.io/Work-Day-Schedule/>

- This web application was designed so that the user can thoughtfully plan out their work schedule.
- **Tools Used:** HTML, CSS, Bootstrap, Moment.js and JavaScript.

**Covid Safety** | <https://github.com/Nishyo-coder/Project-One-Pandemic-Travel> | <https://nishyo-coder.github.io/Project-One-Pandemic-Travel/>

- This web application was designed to inform the users about the covid activity at a destination before travel.
- **Tools Used:** HTML, CSS, UIKit, JavaScript, while using the New York Times API and Quarantine API

## Experience

---

### Schedule Coordinator

Feb 2021 – Present

Lehigh Valley Health Network

- Work efficiently with high level of accuracy while managing high volume of incoming/outgoing calls.
- Learned how to effectively use and navigate through EPIC medical software for Lehigh valley.
- Accurately scheduled patients to proper locations of vaccination, provided patients with details of any necessary preparation, as well as verify demographic information.
